

JONES SIGN RECENT PROJECTS

"Jones made signs before he could talk."

VILLAGE OF MERRICK PARK CORAL GABLES, FL

This week we feature the outstanding work we did for the Village of Merrick Park. This project required the talents of many employees across the spectrum. We can all be proud of the results. These objects clearly demonstrate what sets Jones apart from other sign shops. We are including the lanterns that we fabricated and installed previously so that we can see the project in context.

Thanks to Justin Stowe for taking the great photos.

Thank You for Taking Pride In Your Work!
